BLOOM SELECT INCOME FUND

2016 ANNUAL REPORT

BLB.UN

FORWARD-LOOKING STATEMENTS

Some of the statements contained herein including, without limitation, financial and business prospects and financial outlook may be forward-looking statements which reflect management's expectations regarding future plans and intentions, growth, results of operations, performance and business prospects and opportunities. Words such as "may," "will," "should," "could," "anticipate," "believe," "expect," "intend," "plan," "potential," "continue" and similar expressions have been used to identify these forward-looking statements. These statements reflect management's current beliefs and are based on information currently available to management. Forward-looking statements involve significant risks and uncertainties. A number of factors could cause actual results to differ materially from the results discussed in the forward-looking statements including, but not limited to, changes in general economic and market conditions and other risk factors. Although the forward-looking statements contained herein are based on what management believes to be reasonable assumptions, we cannot assure that actual results will be consistent with these forward-looking statements. Investors should not place undue reliance on forward-looking statements. These forward-looking statements are made as of the date hereof, unless otherwise indicated, and we assume no obligation to update or revise them to reflect new events or circumstances.

MANAGEMENT REPORT OF FUND PERFORMANCE

This annual management report of fund performance for Bloom Select Income Fund (the "Fund") contains financial information but does not contain the audited annual financial statements of the Fund. The audited annual financial statements follow this report. You may obtain a copy of any of the Fund's annual or interim reports, at no cost, by calling 1-855-BLOOM18 or by sending a request to Investor Relations, Bloom Investment Counsel, Inc., Suite 1710, 150 York Street, Toronto, Ontario, M5H 3S5, or by visiting our website at www.bloomfunds.ca or SEDAR at www.sedar.com. Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, Independent Review Committee's report, or quarterly portfolio disclosure.

In accordance with investment fund industry practice, all figures presented in this management report of fund performance, unless otherwise noted, are based on the Fund's calculation of its net asset value, which is in accordance with the terms of the Fund's declaration of trust and annual information form, and is based on closing market prices of investments. Figures presented in the financial statements and certain figures presented in the Financial Highlights section of this management report of fund performance are based on net assets calculated using International Financial Reporting Standards which require the use of a price between the last bid and ask prices for investment valuation, which may differ from the closing market price. The remaining figures presented in the Financial Highlights section are based on net assets calculated using previously applicable Canadian generally accepted accounting principles which required the use of the last bid price for investment valuation, which differed from the closing market price.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE

THE FUND

Bloom Select Income Fund is a closed-end investment trust managed by Bloom Investment Counsel, Inc. (“Bloom” or the “Manager”). Bloom provides administrative services to the Fund and actively manages the Fund’s portfolio. The units of the Fund trade on the Toronto Stock Exchange (“TSX”) under the symbol BLB.UN. The units of the Fund are RRSP, DPSP, RRIIF, RESP, RDSP and TFSA eligible. This Fund has a distribution reinvestment plan (“DRIP”) allowing unitholders to automatically reinvest their monthly distributions in additional units of the Fund.

INVESTMENT OBJECTIVES AND STRATEGIES

The Fund’s investment objectives are to provide unitholders with an investment in an actively managed portfolio comprised primarily of Canadian equity securities that exhibit low volatility at the time of investment, monthly cash distributions that have a large component of Canadian eligible dividends, and the opportunity for capital appreciation.

RECENT DEVELOPMENTS

Cameron Goodnough joined the Fund’s Independent Review Committee (“IRC”) in February of 2016, replacing Helen Kearns.

FUND MERGER AND REMOVAL OF SERVICE FEE

Two events took place in the year ended December 31, 2015 which have affected the Fund’s net assets and management expense ratio compared to prior periods.

On October 23, 2015 the Fund took part in a taxable merger with Bloom Income & Growth Canadian Fund (“BIG”). As part of the merger, the Fund issued 1,237,099 units to BIG in exchange for net assets valued at \$11.8 million. In line with the Manager’s expectations, the increase in net assets has allowed the Fund to invest in a more diverse portfolio and to operate more efficiently. The combination of increased net assets and largely similar operating expenses compared to prior periods has had a beneficial effect on the management expense ratio.

Furthermore, as of end of day September 30, 2015, the obligation of the Manager to pay the service fee of 0.50% of the Fund’s net asset value per annum to registered dealers was removed. Consequently, the component of the management fee paid by the Fund equal to the service fee was also removed, reducing the management fee from an aggregate amount of 1.75% to 1.25% of net asset value per annum, and further reducing the management expense ratio. The Manager made this change in recognition of: a) an industry trend away from the historical practice of paying service fees; and b) the increasingly common restrictions on investment advisors’ ability to hold securities for their clients where the Manager pays a service fee in respect of such securities.

INVESTMENT MANAGER

The manager was established in 1985 and specializes in the management of segregated investment portfolios for wealthy individuals, corporations, institutions and trusts. In addition to its conventional investment management business, the Manager currently manages specialty high-income equity portfolios comprised of dividend paying common equity securities, income trusts and real estate investment trusts.

INVESTMENT MANAGER'S REPORT

JANUARY 5, 2017

The Canadian Economy

Canadian GDP for the most recently released month of October fell 0.3% following growth of 0.4% in September. As was the case for most of 2016, industrial production continues to lag the modest gains in the service sector. Manufacturing growth remains disappointing, falling 2% in the biggest monthly decline since December 2013, and the second worst since the great recession.

However, it is not all gloomy given that a stronger U.S. economy, a weaker Canadian dollar, the beginning of the Federal Government's infrastructure plan and the Canada-EU Comprehensive Economic and Trade Agreement should have positive impacts on Canada's non-energy exports. This should also offset an expected moderation in housing and consumption growth. With these factored in, the consensus view is now for 2017 GDP growth of around 1.8%, vs. the Bank of Canada's (BoC) downwardly revised expectation of 2.0% (down from 2.2% in its previous update).

Unless the upcoming fiscal stimulus from the Federal Government is targeted effectively to lift the economy's potential output, Canada will likely be stuck in low-growth mode. The BoC may have no alternative other than to keep the overnight rate low for quite some time. This may come despite the policy divergence in the U.S. overnight rate and a generally higher move in market rates following the election of Donald Trump and his proposed infrastructure spending and pro-business agenda.

Based on subdued Canadian inflation we continue to believe that interest rates will remain lower-for-longer. After posting the fastest growing inflation rate among the major economies for much of the past two years, Canada's headline inflation rate dipped to 1.2% in November, or to half a point below the U.S. pace. The BoC introduced new measurements of core inflation during the fourth quarter which ranged from 1.3% to 1.9% year on year in November. We expect the trend in inflation to rise somewhat in the coming months, as the relatively low level of the Canadian dollar should continue to make imported goods more expensive.

Potential risks for the economy as well as business headlines remain focused on two key topics: housing affordability and personal debt levels. Although the Federal Government has taken further actions to cool some of the country's hottest housing markets, sale prices have yet to decline and price gains are generally expected to lead to sustained decreases in housing affordability. Aside from price, the other main component in the calculation of affordability is the cost of debt, or in housing terms, the mortgage rate. Following the U.S. election, the Five-Year Government of Canada bond, a proxy for changes in mortgage rates, has moved from 0.75% to roughly 1.15%, the highest level in nearly two years. This impact has been reflected in increased mortgage rates, however such borrowing rates will likely remain near all-time low levels for the foreseeable future. Furthermore, the Canadian household debt-to-income ratio hit an all-time high of 166.9% in the third quarter, up from 166.4% in the second quarter whilst housing starts have declined in seven of the past nine months to 184,000 as of November, down from 217,000 in February. We are growing more cautious, and we would not be surprised to see housing starts continue to fall as more Canadians prioritize debt reduction in 2017.

While the housing market and debt levels are areas to closely monitor, the economy and borrowers should be able to slowly absorb and reduce this leverage, assuming the labour market does not plunge from current levels. As highlighted in the most recent November report, the Canadian labour market generated 148,000 jobs in only four months, bringing the average monthly gain to 15,000, the strongest pace in close to four years. The unemployment rate fell to 6.8% in November, from 7.0% in October, however part-time employment was a driver of job creation at the expense of full-time employment positions.

Another recent newsworthy item was OPEC's announcement that it has finalized an agreement to reduce its oil output by 1.2 million barrels/day, to a production level of 32.5 million barrels/day starting in January. The sustainability of an actual production cut is hard to predict, but if the agreement holds, a return to long-term equilibrium oil prices will become more likely as demand would surpass supply by as early as this current quarter. However, the drain on global storage inventories would likely be moderate during the first half of the year. With that said, oil and gas producers are in a much better position during this recovery, rather than during the downturn, as a result of significant structural cost improvements and restructuring. Based on initial announced capital budgets, Canadian producers are now anticipating to spend 53% more in 2017, close to 2015 levels, but still nearly 40% below peak levels seen in 2014 when oil prices were considerably higher.

Oil and Gas prices have continued to fluctuate owing to lingering uncertainty of longer-term supply-demand balances. Over the year, the price of a barrel of oil, as measured by the one-year forward strip for WTI in Canadian dollars,

increased by 32% from \$57.31 to \$75.48. Furthermore, the Canadian AECO natural gas 12-month forward strip price increased significantly from \$2.40/GL a year ago to \$3.30/GL. Canadian spot oil and gas prices at year-end stood at \$72.08/barrel (up 41%) and \$3.32/GL (up 56%) respectively.

Market Performance

Since the beginning of 2016, the S&P/TSX has outperformed all developed-country markets, mainly owing to the significant rebound in most resource prices, as well as Financials in Canada (as in the U.S.) more recently benefitting from a steeper yield curve following the U.S. election.

On the earnings front, S&P/TSX forward estimates have increased 5% over the last year. The market has again increased its growth expectations as consensus earnings growth for the next 12-18 months has risen above 25%, from 15-20% at the end of last quarter. With that said, we project a gradual decline in S&P/TSX earnings multiples in the year ahead as the earnings recovery has been at least partially discounted by the market. However we would not be surprised to see this market multiple continue to rise if liquidity flows from lower-yielding bonds to the higher earnings yields available in the equity markets.

The S&P/TSX Composite Total Return Index for the last year returned +21.1%. The best performing sectors last year were Materials (up 41.2%), Energy (up 35.5%) and Financials (up 24.1%), while the worst performing sectors for the year were Health Care (down 78.4%), Information Technology (up 5.2%) and Consumer Staples (up 7.5%).

Outlook

We expect the bull market in Canadian equities to continue, but at a slower pace than 2016. On the one hand it appears that investors have absorbed the message of a mediocre medium-to-long-term Canadian economic growth forecast; however, the S&P/TSX will likely face several challenges in replicating its strong 2016 returns in the coming year.

We continue to seek additional investments. This may involve returning to some of the investments that we sold last year but at lower prices or redeploying cash into what we believe are new attractive opportunities.

RESULTS OF OPERATIONS

Distributions

During the year ended December 31, 2016 distributions totaled \$0.50 per unit. The 2016 distribution reflects a monthly rate per unit of \$0.041666, in accordance with the targeted distribution rate of 5% per annum on the subscription price of \$10 per unit as disclosed in the Fund's Prospectus. Since inception on April 20, 2012 the Fund has paid total cash and reinvested distributions of \$2.348606 per unit.

Increase in Net Assets from Operations

The Fund's net investment income was \$7.5 million (\$2.51 per unit) for the year ended December 31, 2016, arising from average portfolio investments during the year of \$25.7 million. Income was comprised primarily of \$1.3 million in dividend and distribution income, \$3.5 million in net realized gains on sales of investments during the year and net unrealized gains for the year of \$2.7 million.

Expenses were \$0.7 million (\$0.22 per unit) for the year, the major components being management fees of \$398,947 and other administrative expenses of \$80,200.

Net Asset Value

The net asset value per unit of the Fund was \$10.81 at December 31, 2016, up by 20.4% from \$8.98 at December 31, 2015. The aggregate net asset value of the Fund decreased from \$28.3 million at December 31, 2015 to \$25.8 million as at December 31, 2016, primarily due to the redemption of units of \$7.1 million, cash distributions to unitholders of \$1.4 million (net of reinvested distributions) and the repurchase and cancellation of units under the normal course issuer bid of \$0.9 million, offset by net investment income of \$7.5 million.

Liquidity

To provide liquidity for unitholders, units of the Fund are listed on the TSX under the symbol BLB.UN.

The Fund received approval from the TSX on May 20, 2015 for a normal course issuer bid program from May 22, 2015 to May 21, 2016, allowing the Fund to purchase for cancellation up to 238,732 units on the TSX if they trade below net asset value per unit. 57,300 units were purchased and cancelled by the Fund under this normal course issuer bid in the year ended December 31, 2016 at a cost of \$501,781 or \$8.76 per unit.

The Fund received approval from the TSX on May 19, 2016 for a normal course issuer bid program from May 24, 2016 to May 23, 2017, allowing the Fund to purchase for cancellation up to 292,752 units on the TSX if they trade below net asset value per unit. 42,800 units were purchased and cancelled by the Fund under this normal course issuer bid in the year ended December 31, 2016 at a cost of \$419,782 or \$9.81 per unit.

Investment Portfolio

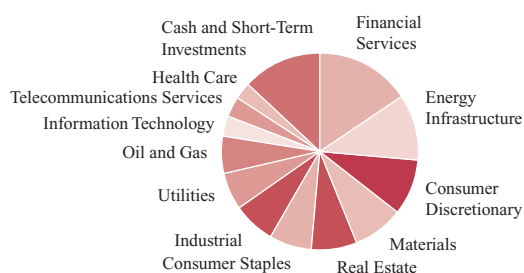

The Fund has established a portfolio comprised primarily of Canadian equities, income trusts and real estate investment trusts (REITs), each of which was selected to achieve the investment objectives of the Fund. The investment objectives of the Fund include the requirement that the Fund only invests in stocks with a Beta (measurement of volatility) of less than 1.0 at the time of purchase, which affects the selection of investments.

It should be noted that, as a percentage of the portfolio (equities and cash and short-term investments), cash and short-term investments has decreased from 14.8% to 12.9% due to the Manager’s slightly less conservative stance on Canadian equities in the immediate term. Investment in the financial services sector has fallen from 15.2% to 10.8%, resulting from the reclassification of Altus Group Limited into real estate. Despite the sale of the Fund’s position in InnVest REIT, the real estate sector has not changed significantly as a percentage of the portfolio, due to the Altus reclassification. The utilities sector has grown from 5.8% to 8.3% through additions to the Fund’s position in Boralex coupled with that security’s 35% increase in value over the year, and the purchase of Boralex subscription receipts. Telecommunications has increased from nil to 3.2% due to the purchase of holdings in Shaw Communications Inc. Class B.

The Fund had unrealized appreciation of \$4.2 million in its portfolio as at December 31, 2016, with the real estate, financial services, consumer staples and consumer discretionary sector holdings showing the greatest unrealized gains, together contributing \$3.2 million to the total of the total unrealized gain. The energy infrastructure and utilities sectors also showed significant gains. Of the sectors displaying unrealized losses, the materials sector showed the largest loss at only \$0.4 million.

The Fund had net realized gains on sales of investments of \$3.5 million during the year ended December 31, 2016, the most significant gains being from sales of the Fund’s position in InnVest REIT and of holdings in Premium Brands Holdings Corporation, Altus Group Limited and Pizza Pizza Royalty Corp.

Portfolio Sectors

Sector	Value (thousands)	% of Total
Energy Infrastructure	\$ 4,035	15.6%
Financial Services	2,797	10.8%
Consumer Discretionary	2,375	9.2%
Utilities	2,162	8.3%
Real Estate	1,941	7.5%
Oil and Gas	1,810	7.0%
Consumer Staples	1,793	6.9%
Materials	1,612	6.2%
Industrial	1,605	6.2%
Information Technology	880	3.4%
Telecommunications Services	835	3.2%
Health Care	734	2.8%
Cash and Short-Term Investments	3,335	12.9%
Total	\$ 25,914	100.0%

RISK

Risks associated with an investment in units of the Fund are discussed in the Fund’s annual information form, which is available on the Fund’s website at www.bloomfunds.ca or on SEDAR at www.sedar.com. Changes to the Fund which have affected certain of these risks are discussed below.

Current Cash Yield and Targeted Distributions

Based on current projections, the average total return required in order for the Fund to achieve its targeted monthly distributions to Unitholders is approximately 7.6%. The weighted average current cash yield on the Fund’s equity portfolio was 4.7% as at December 31, 2016, and thus the Fund is required to generate more than expected in additional returns

(for instance, capital gains and securities lending income) and/or to return capital in order for the Fund to achieve its targeted monthly distributions to Unitholders.

RELATED PARTY TRANSACTIONS

Related party transactions consist of administrative and investment management services provided by the Manager pursuant to the Fund's Declaration of Trust, and Fund expenses paid by the Manager and recharged to the Fund.

Administration and Investment Management Fees

Pursuant to the Fund's declaration of trust, the Manager provides investment management and administrative services to the Fund, for which it is paid an annual management fee.

The management fee is intended to compensate the Manager for providing portfolio advisory and certain administrative services to the Fund. During the year ended December 31, 2016, management fees amounted to \$398,947.

Services received by the Fund in consideration of the management fee, as an approximate percentage of the management fee, comprise portfolio advisory services (86%) and administrative services (14%). Administrative services include: appointment and monitoring of service providers; administration related to the payment of fund expenses and the deposit of fund receipts; administrative services provided to the IRC; review and filing of tax returns; preparation, dissemination and filing of annual and interim reports; maintenance of proxy voting records and the voting of proxies; preparation of quarterly portfolio summaries; administration of the Fund's normal course issuer bid; regulatory reporting; and maintenance of the information on the Fund's website.

Other expenses recharged to the Fund

On an ongoing basis the Manager pays on behalf of the Fund, and subsequently recharges to the Fund, certain expenses of the Fund. For the year ended December 31, 2016 the Fund expensed Independent Review Committee ("IRC") fees of \$29,500, investor relations costs of \$16,011 and premiums for insurance coverage for members of the IRC of \$300, which were paid and recharged by the Manager.

The Fund pays for all other ordinary expenses incurred in connection with the operation and administration of the Fund, including: all costs of portfolio transactions, fees payable to third party services providers, custodial fees, legal, accounting, audit and valuation fees and expenses, expenses of the members of the IRC, expenses related to compliance with National Instrument ("NI") 81-107, fees and expenses relating to the voting of proxies by a third party, costs of reporting to unitholders, registrar, transfer and distribution agency costs, printing and mailing costs, listing fees and expenses and other administrative expenses and costs incurred in connection with the continuous public filing requirements, taxes, brokerage commissions, costs and expenses relating to the issue of units of the Fund, costs and expenses of preparing financial and other reports, costs and expenses arising as a result of complying with all applicable laws, regulations and policies, extraordinary expenses that the Fund may incur and all amounts paid on account of indebtedness.

INDEPENDENT REVIEW COMMITTEE

Prior to the Fund's launch, the IRC for the Fund was established pursuant to NI 81-107 and became operational. The IRC provides independent oversight regarding actual and perceived conflicts of interest involving the Fund and performs all other functions required of an independent review committee under NI 81-107. Costs and expenses, including the remuneration of IRC members, the costs of legal and other advisors to, and legal and other services for, IRC members, and insurance costs, are chargeable to the Fund. As at December 31, 2016 the IRC consisted of three members, all of whom are independent of the Manager.

The Manager has received two standing instructions from the IRC with respect to related party transactions:

Allocation of Fund Expenses and Charging Expenses of Related Entities to the Funds

The standing instruction requires that the Manager follow its policy regarding the charging of expenses of related parties to the Fund, which will, in the IRC's opinion, result in a fair and reasonable result for the Fund. The Manager reports any instances of reliance on the standing instruction to the IRC and the IRC reviews the transactions to confirm compliance with the standing instruction. The Manager relies on the standing instruction on an ongoing basis in charging to the Fund expenses which are payable by the Fund as per the Fund's declaration of trust and annual information form, but which have been paid by the Manager. These expense charges are measured on an accrual basis at the monetary value of the expenses incurred.

BLOOM SELECT INCOME FUND – 2016 ANNUAL REPORT

The Decision to Re-open a Fund

The standing instruction requires that the Manager follow its policy and procedures concerning fund re-openings, which will, in the IRC's opinion, result in a fair and reasonable result for the Fund. The Manager will report any instances of reliance on the standing instruction to the IRC, but has not yet relied on this standing instruction.

2016 TAX INFORMATION

The following information is applicable to unitholders who, for the purpose of the Income Tax Act (Canada), are resident in Canada and hold shares as capital property outside of an RRSP, DPSP, RRIF, RESP or TFSA. Unitholders should receive a T3 slip from their investment dealer providing this information. T3 supplementary slips for holdings of the Fund will indicate Other Income (Investment Income and Non-Investment Income) in Box 26, Foreign Non-Business Income in Box 25, Capital Gains in Box 21 and Eligible Dividend Income in Box 49. Dividend income is subject to the standard gross-up and federal dividend tax credit rules. The Return of Capital component is a non-taxable amount that serves to reduce the adjusted cost base of Fund units and is reported on the T3 supplementary slips in Box 42.

The following table outlines the breakdown of the Fund's distributions declared in 2016 on a per unit basis.

Record Date	Payment Date	Return of Capital	Total Distribution
Jan. 29, 2016	Feb. 16, 2016	\$ 0.041666	\$ 0.041666
Feb. 29, 2016	Mar. 15, 2016	\$ 0.041666	\$ 0.041666
Mar. 31, 2016	Apr. 15, 2016	\$ 0.041666	\$ 0.041666
Apr. 29, 2016	May 16, 2016	\$ 0.041666	\$ 0.041666
May 31, 2016	Jun. 15, 2016	\$ 0.041666	\$ 0.041666
Jun. 30, 2016	Jul. 15, 2016	\$ 0.041666	\$ 0.041666
Jul. 29, 2016	Aug. 15, 2016	\$ 0.041666	\$ 0.041666
Aug. 31, 2016	Sep. 15, 2016	\$ 0.041666	\$ 0.041666
Sep. 30, 2016	Oct. 17, 2016	\$ 0.041666	\$ 0.041666
Oct. 31, 2016	Nov. 15, 2016	\$ 0.041666	\$ 0.041666
Nov. 30, 2016	Dec. 15, 2016	\$ 0.041666	\$ 0.041666
Dec. 30, 2016	Jan. 16, 2017	\$ 0.041674	\$ 0.041674
Total		\$ 0.500000	\$ 0.500000

This information is of a general nature only and does not constitute legal or tax advice to any particular investor. Accordingly, investors are advised to consult their own tax advisors with respect to their individual circumstances.

PAST PERFORMANCE

The following chart and table show the past performance of the Fund. Past performance does not necessarily indicate how the Fund will perform in the future. The information shown is based on net asset value per unit and assumes that distributions made by the Fund in the period were reinvested at net asset value per unit in additional units of the Fund.

All past performance for periods prior to the Fund's merger with Bloom Income & Growth Canadian Fund on October 23, 2015 are for the Fund only.

Annual Compound Returns

The following table shows the Fund's annual compound return for the year and three years ended December 31, 2016 and the period since inception, compared with the S&P/TSX Composite Total Return Index ("Index"). The Index tracks the performance, on a market weight basis and a total return basis, of a broad index of large-capitalization issuers listed on the TSX, including common stocks, REITs and income trust units, and is an appropriate benchmark as the Fund invests in such common stocks, REITs and income trusts. Since the Fund is actively managed, the sector weightings differ from those of the Index. Also, the Fund's portfolio contains predominantly low volatility, high dividend paying securities, whereas the Index does not necessarily focus on this type of investment. As well, the Fund may invest in issuers that are not included in the Index. For these reasons it is not expected that the Fund's performance will mirror that of the Index. Further, the Index is calculated without the deduction of management fees and fund expenses, whereas the performance of the Fund is calculated after deducting such fees and expenses.

	One year	Three years	Since inception ⁽¹⁾
Bloom Select Income Fund (net of fees and expenses)	26.6%	8.2%	8.5%
S&P/TSX Composite Total Return Index	21.1%	7.1%	8.2%

⁽¹⁾ Period from April 20, 2012 (commencement of operations) to December 31, 2016

During all periods ended December 31, 2016, the Fund outperformed the Index, after taking into account the expenses of the Fund. In addition to the effect of the deduction of management fees and expenses inherent in the Fund's performance figures, this reflects the differences in average sector weightings between the Fund's portfolio and the Index over these periods; for example, over the year to December 31, 2016 the Fund was overweight compared to the Index in the cash and short term investments and energy infrastructure sectors, and was underweight compared to the Index in the financial services, oil and gas and materials sectors. It also reflects differences in individual portfolio selections between the Fund's portfolio and the Index within each of the sectors, which result in different average sector returns.

Year-by-Year Returns

The bar chart shows the Fund's performance for each fiscal period since inception. It shows, in percentage terms, how an investment held on the first day of the fiscal period would have changed by the last day of the fiscal period.

⁽¹⁾ Period from April 20, 2012 (commencement of operations) to December 31, 2012

⁽²⁾ Year from January 1 to December 31 of the year indicated

BLOOM SELECT INCOME FUND – 2016 ANNUAL REPORT

FINANCIAL HIGHLIGHTS

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the fiscal periods indicated. *The information in the following tables is presented in accordance with NI 81-106 and, as a result, does not act as a continuity of opening and closing net assets per unit, because the increase in Net Assets from operations is based on weighted average units outstanding during the period, and all other numbers are based on actual units outstanding at the relevant point in time.*

All financial highlights for periods prior to the Fund's merger with Bloom Income & Growth Canadian Fund on October 23, 2015 are for the Fund only.

⁽¹⁾ This information is derived from the Fund's audited annual financial statements. The Fund adopted International Financial Reporting Standards (IFRS) on January 1, 2014 and has applied IFRS to its comparative financial statements. Therefore the accounting principles applicable to the years ended December 31, 2014 and 2013 are IFRS, and those applicable to earlier periods are Canadian GAAP. Accordingly, the net assets per unit at December 31, 2012 was \$9.04 calculated under Canadian GAAP, while the net assets per unit at January 1, 2013 was \$9.07 calculated under IFRS. The net assets per unit presented prior to January 1, 2013 in the Canadian GAAP financial statements differs from the net asset value per unit calculated for weekly net asset value purposes, primarily due to investments being valued at bid prices for Canadian GAAP financial statement purposes and closing prices for weekly net asset value purposes. Under IFRS, the net assets per unit present in the financial statements is generally the same as the net asset value per unit calculated for weekly net asset value purposes.

⁽²⁾ Net assets per unit and distributions per unit are based on the actual number of units outstanding at the relevant time. The increase in net assets from operations per unit is based on the weighted average number of units outstanding over the fiscal period.

⁽³⁾ Unit issue expense of \$3,340,911 were incurred in connection with the issuance of Fund units. Unit issue expense per unit is based on the number of units issued at the time the expenses were incurred.

⁽⁴⁾ \$112,769 (2015: 134,344; 2014: \$186,465; 2013: \$235,014; 2012: \$98,622) of distributions were reinvested in units under the Fund's distribution reinvestment plan. The remainder of the distributions were paid in cash.

Ratios and Supplemental Data

For the fiscal period ended December 31	2016	2015	2014	2013	2012⁽¹⁾
Net asset value (000s) ⁽²⁾	\$ 25,807	\$ 28,343	\$ 25,864	\$ 38,114	\$ 49,012
Number of units outstanding ⁽²⁾	2,386,883	3,155,539	2,514,948	3,844,984	5,404,932
Management expense ratio (“MER”) ⁽³⁾	2.16%	2.46%	2.44%	2.37%	9.22%
Trading expense ratio ⁽⁴⁾	0.09%	0.09%	0.11%	0.12%	0.32%
Portfolio turnover rate ⁽⁵⁾	15.07%	14.18%	3.42%	10.62%	2.91%
Net asset value per Unit ⁽²⁾	\$ 10.81	\$ 8.98	\$ 10.28	\$ 9.91	\$ 9.07
Closing market price ⁽²⁾	\$ 10.20	\$ 8.35	\$ 9.62	\$ 9.58	\$ 8.87

⁽¹⁾ Period from inception on April 20, 2012 to December 31, 2012

⁽²⁾ As at December 31 of the year shown

⁽³⁾ MER is based on the requirements of NI 81-106 and includes the total expenses (excluding commissions and other portfolio transaction costs) of the Fund for the period, including, in 2012, one-time unit issue expense relating to the Fund’s initial public offering (not annualized). Total expenses are expressed as an annualized percentage of the average net asset value during the period.

⁽⁴⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of the average Net Asset Value of the Fund during the period.

⁽⁵⁾ The Fund’s portfolio turnover rate indicates how actively the Manager manages the Fund’s portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund’s portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period, excluding cash and short-term investments maturing in less than one year, by the average market value of investments during the period.

Management Expense Ratio

The MER of the Fund was 2.16% for the year ended December 31, 2016, down from an MER of 2.46% in the year ended December 31, 2015. The decrease is primarily due to the increase in net asset value through the merger with Bloom Income & Growth Canadian Fund in October 2015, which, when paired with largely fixed costs, caused the MER to decrease, and the cessation of the payment of service fees from October 1, 2015 onward.

MANAGEMENT RESPONSIBILITY STATEMENT

The financial statements of Bloom Select Income Fund (the “Fund”) have been prepared by Bloom Investment Counsel, Inc. (the “Manager” of the Fund) and approved by the Board of Directors of the Manager. The Manager is responsible for the information and representations contained in these financial statements and the other sections of the annual report.

The Manager maintains appropriate procedures to ensure that relevant and reliable financial information is produced. The financial statements have been prepared in accordance with International Financial Reporting Standards and include certain amounts that are based on estimates and judgments. The significant accounting policies applicable to the Fund are described in note 3 to the financial statements.

The Board of Directors of the Manager is responsible for ensuring that management fulfills its responsibilities for financial reporting and has reviewed and approved these financial statements.

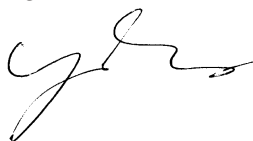

The Manager, with the approval of its Board of Directors, has appointed the external firm of PricewaterhouseCoopers LLP as the auditor of the Fund. They have audited the financial statements of the Fund in accordance with Canadian generally accepted auditing standards to enable them to express to unitholders their opinion on the financial statements. The auditor has had full and unrestricted access to the Board of Directors to discuss their findings.

INDEPENDENT AUDITOR'S REPORT

To the Unitholders of Bloom Select Income Fund (the Fund)

We have audited the accompanying financial statements of the Fund, which comprise of the statements of financial position as at December 31, 2016 and 2015 and the statements of comprehensive income, changes in net assets and cash flows for the years then ended, and the related notes, which comprise a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards (IFRS), and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on the financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2016 and 2015, and its financial performance and its cash flows for the years then ended in accordance with the International Financial Reporting Standards.

NOTES TO FINANCIAL STATEMENTS

December 31, 2016

1. GENERAL INFORMATION

Bloom Select Income Fund (the “Fund”) is a closed-end investment trust established under the laws of the province of Ontario pursuant to a declaration of trust dated March 22, 2012, amended and restated as of October 23, 2015. The Fund is listed on the Toronto Stock Exchange (“TSX”) under the symbol BLB.UN and commenced operations on April 20, 2012. The address of the Fund’s principal place of business is 150 York Street, Toronto, Ontario. The Fund invests in equity securities of Canadian companies. The financial statements are presented in Canadian dollars.

The Fund’s investment objectives are to provide unitholders with an investment in an actively managed portfolio comprised primarily of Canadian equity securities that exhibit low volatility at the time of investment, monthly cash distributions that have a large component of Canadian eligible dividends, and the opportunity for capital appreciation.

The manager and trustee of the Fund is Bloom Investment Counsel, Inc. (the “Manager”). CIBC Mellon Trust Company is the custodian of the Fund and CIBC Mellon Global Securities Services Company is the administrator of the Fund.

The Fund merged with Bloom Income & Growth Canadian Fund on October 23, 2015 as described in note 16.

These financial statements were authorized for issue by the Manager on March 7, 2017.

2. BASIS OF PRESENTATION

These financial statements have been prepared in compliance with International Financial Reporting Standards (“IFRS”) as published by the International Accounting Standards Board (“IASB”).

These financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities at fair value through profit and loss. The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the funds significant accounting policies. Actual results could differ from those estimates and the results could be material.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Financial instruments

The Fund’s financial instruments include, where applicable, investments, cash and cash equivalents, dividends and distributions receivable, receivable for investments sold, payable for investments purchased, distributions payable to unitholders, accrued liabilities, and redemptions payable.

The Fund’s investments are designated as financial assets to be measured at fair value through profit and loss (“FVTPL”).

All other financial assets and liabilities of the Fund are measured at amortized cost. Under this method, financial assets and liabilities reflect the amount required to be received or paid, discounted where appropriate at the contract’s effective interest rate. The carrying values of financial assets and liabilities at amortized cost approximate their fair values due to their short-term nature.

The Fund recognizes financial instruments at fair value on initial recognition, plus transaction costs in the case of financial instruments measured at amortized cost.

b) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of financial assets traded in active markets (which includes the Fund’s investments) is based on quoted market prices at the close of trading on the reporting date. The Fund uses the last traded market price for investment valuation where that price falls between the latest bid and ask prices. In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

NOTES TO FINANCIAL STATEMENTS

December 31, 2016 (continued)

The Fund classifies fair value measurements within a hierarchy as described in Note 15(h). The Fund recognizes transfers into and out of the fair value hierarchy levels as of the date of the event or change in circumstances giving rise to the transfer.

c) Impairment of financial assets at amortized cost

At each reporting date, the Fund assesses whether there is objective evidence that a financial asset at amortized cost is impaired. If such evidence exists, the Fund recognizes an impairment loss as the difference between the amortized cost of the financial asset and the present value of the estimated future cash flows, discounted using the instrument's original effective interest rate. Impairment losses on financial assets at amortized cost are reversed in subsequent periods if the amount of the loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized.

d) Derecognition of financial assets and liabilities

The Fund derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership are transferred, or in which these risks and rewards are neither transferred nor retained but the Fund does not retain control of the asset. On derecognition of a financial asset, the difference between the carrying amount of the asset and the consideration received is included in the Statements of Comprehensive Income. The Fund derecognizes a financial liability when its contractual obligations are discharged, cancelled or expire.

The Fund enters into securities lending transactions in which it lends investments to counterparties, but since the Fund retains all of the risks and rewards of ownership, the investments are not derecognized. Non-cash collateral pledged by the counterparty to a securities lending transactions is not recognized as the Fund does not accept the risks and rewards of ownership of that collateral.

e) Offsetting

Financial assets and liabilities are offset and the net amount presented in the Statements of Financial Position only when the Fund has a legal right to offset the amounts and it intends to either settle on a net basis or realize the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted under IFRS, e.g. for gains and losses arising from a group of similar transactions, such as realized gains and losses on investments.

f) Cash and cash equivalents

Cash and cash equivalents consist of deposits with financial institutions and short-term debt instruments with maturities of less than three months from the date of acquisition that are highly liquid, readily convertible to known amounts of cash and subject to an insignificant risk of changes in value.

g) Investment transactions and income recognition

Investment transactions are recorded on the trade date. Dividend and distribution income are recognized on the ex-dividend or ex-distribution date. Interest for distribution purposes shown in the Statements of Comprehensive Income represents the discount received by the Fund on its short-term debt instruments recognized on an accrual basis. Realized and unrealized gains and losses from investment transactions are calculated on an average cost basis.

h) Foreign exchange

The functional and presentation currency of the Fund is the Canadian dollar. Amounts received by the Fund on an offering of its units and amounts payable on redemption are received or paid in Canadian dollars. Any currency other than the Canadian dollar represents foreign currency to the Fund. Purchases and sales of investments in foreign currencies are translated into the Fund's functional currency using the exchange rate prevailing on the trade date. Income on foreign investments is translated at the prevailing exchange rate on the transaction date. The quoted fair value of investments and other assets and liabilities denominated in foreign currencies is translated at the period-end exchange rate.

i) Increase (decrease) in net assets from operations per unit

Increase (decrease) in net assets from operations per unit represents the increase (decrease) in net assets from operations for the period divided by the weighted average number of units outstanding during the period.

NOTES TO FINANCIAL STATEMENTS

December 31, 2016 (continued)

j) Distributions

Income and net realized capital gains (reduced by loss carryforwards, if any) earned by the Fund are distributed to participants through a regular monthly distribution. Any excess income and net realized capital gains not so distributed during the year are distributed in December of each year to unitholders. Any excess of regular monthly distributions over actual income and net realized capital gains is characterized as a return of capital.

k) Transaction costs on investment transactions

Transaction costs on purchases and sales of investments are expensed and are included in ‘Transaction costs’ in the Statements of Comprehensive Income. Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of an investment, which include fees and commissions paid to agents, advisors, brokers and dealers, levies by regulatory agencies and securities exchanges, and transfer taxes and duties.

l) Classification of redeemable units

The Manager is required by IAS 32, *Financial Instruments: Presentation* (“IAS 32”) to assess whether the redeemable units represent a liability of the Fund or equity of the Fund. The Fund does not have any obligation, other than on redemption of the units, to deliver cash or other financial instruments to the unitholders, since the Fund may pay its regular monthly distributions and any distributions it is required by its Declaration of Trust to make so that it does not become liable for income tax, in units rather than cash. Total expected cash flows attributable to the units over each of their lives are based substantially on net income, the change in net assets or the change in the fair value of assets over that time. As a result of these facts, the redeemable units meet the criteria of IAS 32 to be classified as equity.

m) Net assets per unit

The net assets per unit is calculated by dividing the net assets representing unitholders’ equity by the total number of units outstanding at the end of the period.

4. ACCOUNTING STANDARDS ISSUED BUT NOT YET ADOPTED

The final version of IFRS 9, *Financial instruments* (“IFRS 9”) was issued by the IASB in July 2014 and will replace IAS 39 *Financial Instruments: Recognition and Measurement* (“IAS 39”). IFRS 9 is effective for annual periods beginning on or after January 1, 2018, however is available for early adoption. IFRS 9 has not yet been adopted by the Fund but is expected to be relevant to the Fund. The Fund has begun the process of assessing the impact that the standard will have on its financial statements, and its preliminary assessment is that the impact will be negligible. The Fund will adopt the new standard in its financial statements for the year ending December 31, 2018.

IFRS 9 introduces a model for classification and measurement, a single, forward-looking ‘expected loss’ impairment model and a substantially reformed approach to hedge accounting. The new single, principle based approach for determining the classification of financial assets is driven by cash flow characteristics and the business model in which an asset is held. The new model also results in a single impairment model being applied to all financial instruments, which will require more timely recognition of expected credit losses. It also includes changes in respect of own credit risk in measuring liabilities elected to be measured at fair value, so that gains caused by the deterioration of an entity’s own credit risk on such liabilities are no longer recognized in profit or loss. In addition, the own credit risk changes can be early applied in isolation without otherwise changing the accounting for financial instruments.

5. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of financial statements requires management to use judgment in applying its accounting policies and to make estimates and assumptions about the future. The following discusses the most significant accounting judgments and estimates that the Fund has made in preparing the financial statements:

Classification and measurement of investments and application of the fair value option

In classifying and measuring the financial instruments held by the Fund, the Manager is required to make significant judgments about whether or not the business of the Fund is to invest on a total return basis for the purpose of applying the fair value option for financial assets under IAS 39. The most significant judgment made is the determination that the fair value option can be applied to the Fund’s investments.

6. TAXATION

The Fund qualifies as a mutual fund trust under the Income Tax Act (Canada) and accordingly is subject to income tax on its income, including net realized capital gains, which is not paid or payable to the Fund’s unitholders, less any income that

NOTES TO FINANCIAL STATEMENTS

December 31, 2016 (continued)

can be retained by the use of tax credits available to the Fund. The Fund’s taxation year end is December 31. No provision for income taxes has been recorded in the accompanying financial statements as the Fund has determined that it is in substance not taxable since all net income and net realized capital gains of the Fund for the year are distributed to the unitholders to the extent necessary to reduce income taxes payable to nil.

Since the Fund does not record income taxes, the tax assets or liabilities related to capital and non-capital losses and other temporary differences have not been reflected in the Statements of Financial Position as deferred income tax assets or liabilities.

Non-capital loss carry forwards may be applied against future years’ taxable income, and may be carried forward for 20 years from the year in which they are realized. As at December 31, 2016, the Fund had no non-capital losses carried forward (December 31, 2015 – nil). Capital losses incurred by the Fund may be carried forward indefinitely to apply against capital gains realized in future years. As at December 31, 2016, the Fund had \$1,663,003 in capital losses available for carryforward (December 31, 2015 – \$1,663,003).

7. CASH AND CASH EQUIVALENTS

The Fund’s cash and cash equivalents as at December 31, 2016 and 2015 comprised the following:

	2016	2015
Cash	837,975	311,886
Cash equivalents	2,496,809	3,899,305
	3,334,784	4,211,191

Cash equivalents as at December 31, 2016 comprised:

Type	Issuer	DBRS, credit rating of issuer	Par value \$	Maturity date	Yield	Fair value \$
Banker’s acceptance	TD Bank	AA/R-1/Negative	500,000	January 09, 2017	0.76%	499,917
Banker’s acceptance	TD Bank	AA/R-1/Negative	2,000,000	March 13, 2017	0.80%	1,996,892
			<u>2,500,000</u>			<u>2,496,809</u>

Cash equivalents at December 31, 2015 comprised:

Type	Issuer	DBRS, credit rating of issuer	Par value \$	Maturity date	Yield	Fair value \$
Banker’s acceptance	TD Bank	AA/R-1/Negative	2,900,000	January 08, 2016	0.76%	2,899,578
Banker’s acceptance	Royal Bank of Canada	AA/R-1/Negative	1,000,000	January 14, 2016	0.77%	999,727
			<u>3,900,000</u>			<u>3,899,305</u>

8. UNITHOLDERS’ EQUITY

The Fund is authorized to issue an unlimited number of a single class of transferable and redeemable units each of which represents an equal, undivided interest in the net asset value (“NAV”) of the Fund. Each unit entitles the holder to one vote and to participate equally with respect to any and all distributions made by the Fund.

Units may be surrendered for redemption annually at the option of the unitholder during the period from September 15 until 5.00 p.m. (Toronto time) on the last business day in September, subject to the Fund’s right to suspend redemptions in certain circumstances. Units properly surrendered for redemption will be redeemed on the second last business day in October of each year (the Annual Redemption Date) and the redeeming unitholder will receive a redemption price per unit equal to 100% of the NAV per unit as determined on the Annual Redemption Date, less any costs and expenses incurred by the Fund in order to fund such redemption. For the purpose of calculating the NAV used in connection with

NOTES TO FINANCIAL STATEMENTS

December 31, 2016 (continued)

the redemption of units, the value of the securities held by the Fund will be equal to the weighted average trading price of such securities over the last three business days preceding the Annual Redemption Date.

If a significant number of units are redeemed, the trading liquidity of the units could be significantly reduced. In addition, the expenses of the Fund would be spread among fewer units resulting in a potentially lower distribution per unit. The Manager has the ability to terminate the Fund if, in its opinion, it would be in the best interests of the unitholders to do so. The Manager may also suspend the redemption of units in certain circumstances.

The 2016 annual redemption took place on October 28, 2016 and consisted of 680,138 units for redemption proceeds of \$7,092,031 payable on November 17, 2016 (2015 – annual redemption on October 29, 2015 of 528,050 units for redemption proceeds of \$4,957,988 payable on November 19, 2015).

The fund merger described in note 16 resulted in the issuance of 1,237,099 units of the Fund on October 23, 2015.

The Fund has received approval from the TSX for normal course issuer bid (“NCIB”) programs between specified dates, allowing the Fund to purchase units for cancellation on the TSX if they trade below NAV per unit. The maximum number of units which can be purchased and cancelled is specified for each NCIB. Units purchased and cancelled by the Fund for the years ended December 31, 2016 and 2015 were as follows:

Approval date	Start date	End date	Maximum units	Units purchased and cancelled	
				2016	2015
May 20, 2014	May 22, 2014	May 21, 2015	371,326	–	26,900
May 20, 2015	May 22, 2015	May 21, 2016	238,732	57,300	55,200
May 19, 2016	May 24, 2016	May 23, 2017	292,752	42,800	–
Total				100,100	82,100

When units of the Fund are redeemed or purchased for cancellation at a price per unit which is lower than the weighted average cost per unit, the difference is included in contributed surplus in the Statements of Financial Position. If the redemption or purchase price is greater than the weighted average cost per unit, the difference is first charged to contributed surplus until the entire account is eliminated, and the remaining amount is charged to retained earnings.

Unit transactions of the Fund for the years ended December 31, 2016 and 2015 were as follows:

	2016	2015
Units outstanding at beginning of year	3,155,539	2,514,948
Reinvestment of distributions	11,582	13,642
Redemption of units	(680,138)	(528,050)
Repurchase and cancellation of units	(100,100)	(82,100)
Issued on fund merger (note 16)	–	1,237,099
Units outstanding at end of year	2,386,883	3,155,539

9. CAPITAL MANAGEMENT

Units issued and outstanding are considered to be the capital of the Fund. The Fund’s capital therefore comprises net assets of \$25,807,029 (December 31, 2015 – \$28,343,284). The Fund’s objectives in managing its capital are to provide unitholders with monthly cash distributions and the opportunity to participate in gains in the value of the investment portfolio. The Fund manages its capital taking into consideration the risk characteristics of its holdings. In order to manage its capital structure, the Fund may adjust the amount of distributions paid to unitholders, return capital to unitholders, increase or decrease its level of borrowing if applicable, or purchase units for cancellation.

10. DISTRIBUTIONS TO UNITHOLDERS

Distributions, as declared on the Fund’s behalf by the Manager, are made on a monthly basis to unitholders of record on the last business day of each month, payable by the fifteenth business day of the following month. For the year ended,

NOTES TO FINANCIAL STATEMENTS

December 31, 2016 (continued)

December 31, 2016, the Fund declared total distributions of \$0.50 (2015 – \$0.50) per unit, which amounted to \$1,465,186 (2015 – \$1,329,809). Under the Fund's distribution reinvestment plan ("DRIP"), unitholders may elect to reinvest monthly distributions in additional units of the Fund which are issued from treasury. In the year ended December 31, 2016, distributions of \$112,769 were reinvested in 11,582 units of the Fund which were issued from treasury (year ended December 31, 2015 – distributions of \$134,344 were reinvested in 13,642 units of the Fund which were issued from treasury).

In conjunction with the annual redemption described in note 8, the Fund made distributions of capital gains to redeeming unitholders in the amount of \$3,504,639 (2015 – \$1,226,086).

11. EXPENSES

Management fees and other reasonable expenses incurred in the operations of the Fund are charged as expenses in the Statements of Comprehensive Income of the Fund, and include expenses paid by the manager on behalf of the Fund and subsequently recharged to the Fund as described in note 12.

The Fund pays for all other expenses incurred in connection with the operation and administration of the Fund, including: all costs of portfolio transactions, fees payable to third party services providers, custodial fees, legal, accounting, audit and valuation fees and expenses, expenses of the members of the Independent Review Committee ("IRC"), expenses related to compliance with National Instrument 81-107, fees and expenses relating to the voting of proxies by a third party, costs of reporting to unitholders, registrar, transfer and distribution agency costs, printing and mailing costs, listing fees and expenses and other administrative expenses and costs incurred in connection with the continuous public filing requirements, taxes, brokerage commissions, costs and expenses relating to the issue of units of the Fund, costs and expenses of preparing financial and other reports, costs and expenses arising as a result of complying with all applicable laws, regulations and policies and all amounts paid on account of indebtedness.

12. RELATED PARTY TRANSACTIONS

In accordance with the Declaration of Trust, the Manager is entitled to an annual management fee aggregating to 1.25% per annum of the NAV of the Fund, calculated weekly and paid monthly in arrears. Prior to October 1, 2015 the Manager was entitled to 1.75% per annum of the NAV of the Fund, comprised of 1.25% per annum of the NAV of the Fund, calculated weekly and paid monthly in arrears, plus an amount to be paid by the Manager to registered dealers equal to the service fee of 0.50% per annum of the NAV of the Fund, calculated quarterly and paid as soon as practicable after the end of each calendar quarter, plus applicable taxes.

For the year ended December 31, 2016 the Fund expensed management fees of \$398,947 (2015 – \$434,767). As at December 31, 2016, the Fund had management fees payable of \$28,720 (December 31, 2015 – \$32,033) included in accrued liabilities.

On an ongoing basis, the Manager pays on behalf of the Fund, and subsequently recharges to the Fund, certain expenses of the Fund. For the year ended December 31, 2016 the Fund expensed IRC fees of \$29,500 (2015 – \$36,200) and audit fees of nil (2015 – \$315), as well as investor relations costs of \$16,011 (2015 – \$12,855) and premiums for insurance coverage for members of the IRC of \$300 (2015 – \$499) (both included in 'other administrative expenses') which were paid and recharged by the Manager. As at December 31, 2016 the Fund owed the Manager \$1,401 for recharged expenses (December 31, 2015 – \$1,252) included in accrued liabilities.

Units held by the Manager and its affiliates represent 7.8% of the units outstanding at December 31, 2016 (December 31, 2015 – 5.9%).

13. BROKERAGE COMMISSIONS ON SECURITIES TRANSACTIONS

During the year ended December 31, 2016 the Fund paid \$26,337 (2015 – \$23,919) in brokerage commissions and other transaction costs for portfolio transactions. There are no soft dollar commissions.

14. SECURITIES LENDING

The Fund has entered into a securities lending program with CIBC Mellon Global Securities Services Company, (as administrator), which has a DBRS credit rating of AA / R-1 / Stable and a Moody's credit rating of A1 / P-1 / Stable, and BNY Mellon (as lending agent), which has DBRS credit rating of AA / R-1 / Stable and a Moody's credit rating of Aa1 / P-1 / Stable. Securities lending transactions involve the temporary exchange of securities for collateral with a

NOTES TO FINANCIAL STATEMENTS

December 31, 2016 (continued)

commitment to deliver the same securities and collateral on a specified future date. Income is earned in the form of fees paid by the counterparty and is recognised on the accrual basis in the Statements of Comprehensive Income. The Fund retains the risks and rewards of ownership of the securities loaned, and therefore these securities do not qualify for derecognition and therefore remain in the Statements of Financial Position of the Fund during the loan period. The risks and rewards of ownership include any gains or losses in market value of the securities, the ability to sell the securities, and any dividends or distributions on the securities for which the ex-dividend dates fall within the loan period.

The Fund receives collateral of at least 102% of the value of securities on loan. Should a borrower default on a securities loan, the Fund is entitled to the associated collateral. The Fund is not exposed to the risks and rewards of ownership of the collateral therefore non cash collateral is not included in the Fund's Statements of Financial Position. Collateral may comprise: cash; debt that is issued or guaranteed by the Government of Canada or a province thereof, by the Government of the United States of America or of one of the states of the United States of America or of a sovereign state of the G7 countries, or of Austria, Belgium, Denmark, Finland, the Netherlands, Spain, Sweden, Switzerland, or a permitted supranational agency of Organisation for Economic Co-ordination and Development countries; debt that is issued or guaranteed by a financial institution whose short-term debt is rated A-1 or R-1 or equivalent and includes bankers acceptances, banker bearer deposit notes, or irrevocable letters of credit; corporate debt or corporate commercial paper; or convertible securities.

The aggregate fair value of securities loaned (which equals their carrying amount) and the aggregate fair value of the collateral under securities lending transactions as at December 31, 2016 and 2015 are as follows:

2016		2015	
Fair value of securities loaned	Fair value of collateral	Fair value of securities loaned	Fair value of collateral
\$1,640,348	\$1,724,760	\$3,938,456	\$4,139,120

As at December 31, 2016, the collateral consisted of debt that is issued or fully and unconditionally guaranteed as to the principal and interest by the government of Canada, a province of Canada, the government of the United States of America or the government of France or of the Netherlands (December 31, 2015 – the collateral consisted of debt that is issued or fully and unconditionally guaranteed as to the principal and interest by the government of Canada, a province of Canada, the government of the United States of America or the government of a sovereign state of G7 countries (except Japan or Italy) or of Austria, Denmark or the Netherlands, and corporate debt).

The table below sets out a reconciliation of the gross amounts generated from securities lending transactions to the securities lending income disclosed in the Statements of Comprehensive Income for the years ended December 31, 2016 and 2015:

	2016		2015	
	\$	% of gross income	\$	% of gross income
Securities lending income	6,481	70.0%	4,983	70.0%
Agent fees paid to the lending agent	2,777	30.0%	2,135	30.0%
Gross securities lending income	<u>9,258</u>		<u>7,118</u>	

15. RISK ASSOCIATED WITH FINANCIAL INSTRUMENTS

a) Risk factors

The Fund's investment activities expose it to a variety of risks associated with financial instruments.

The Manager seeks to maximize the returns derived for the level of risk to which the Fund is exposed and to minimize potential adverse effects on the Fund's performance by employing professional and experienced portfolio managers, by daily monitoring of the Fund's positions and market events, and by diversifying the investment portfolio within the constraints of the investment objectives and restrictions. The Manager also maintains a governance structure that oversees

NOTES TO FINANCIAL STATEMENTS

December 31, 2016 (continued)

the Fund's investment activities and monitors compliance with the Fund's stated investment objectives and restrictions, internal guidelines and securities regulations.

b) Credit risk

The Fund is exposed to credit risk, which is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The carrying amount of the Fund's assets represents the maximum credit risk exposure as at December 31, 2016 and December 31, 2015.

All transactions in listed securities are settled upon delivery using approved brokers. The trade will fail if either party fails to meet its obligations. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker.

The Fund enters into securities lending transactions with counterparties whereby the Fund temporarily exchanges securities for collateral with a commitment by the counterparty to deliver the same securities at a future date. All counterparties are subject to a stringent examination of creditworthiness which includes a financial assessment of the company, a review of qualitative factors including management and corporate governance, comparison to similar companies and consideration of ratings assigned by external ratings agencies, and the value of collateral must be at least 102% of the fair value of the securities loaned. Therefore credit risk associated with these transactions is considered minimal.

The Fund limits its exposure to credit loss by dealing with counterparties, including the lending agent and the issuers of short-term debt instruments, of high credit quality (see notes 7 and 14). To maximize the credit quality of its investments, the Fund's Manager performs ongoing credit evaluations based upon factors surrounding the credit risk of counterparties, historical trends and other information. Given that the Fund is primarily invested in equities, credit risk is not considered significant.

c) Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All investments present a risk of loss of capital. The Manager aims to moderate this risk through a careful selection and diversification of securities and other financial instruments within the limits of the Fund's investment objectives and strategy. The Fund's investment objectives include the requirement that its portfolio securities must exhibit low price volatility at the time of purchase, which may further reduce other price risk. The maximum risk of loss resulting from financial instruments is equivalent to their fair value.

The Fund is exposed to price risk from its investment in income trusts and equity securities. As at December 31, 2016, had the prices of these securities increased or decreased by 10%, with all other variables held constant, net assets would have increased or decreased by approximately \$2,257,897 (December 31, 2015 – \$2,421,058) or 8.7% (December 31, 2015 – 8.5%) of total net assets. In practice, the actual results may differ and the impact could be material.

d) Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities and its redeemable units. The Fund is exposed to liquidity risk through the annual redemption of its units, because there may be insufficient trade volumes in the markets for the securities of the Fund or because the securities may be subject to legal or contractual restrictions on their resale. The Fund receives notice of at least 22 business days prior to the date of redemption of units and has up to 15 business days after the redemption date to settle the redemptions, which provides the Manager time to liquidate securities to fund the redemptions, although there remains a risk that the required funds cannot be obtained. All of the liabilities of the Fund mature in six months or less. Liquidity risk is managed by investing the majority of the Fund's assets in investments that are traded in an active market and can be readily disposed of. The Fund aims to retain sufficient cash and cash equivalent positions to maintain liquidity; therefore, the liquidity risk for the Fund is considered minimal.

e) Interest rate risk

Interest rate risk arises on interest-bearing financial instruments. The Fund is exposed to interest rate risk on its short-term debt instruments. Fluctuations in interest rates have a direct effect on the Fund's ability to earn interest income. As at

NOTES TO FINANCIAL STATEMENTS

December 31, 2016 (continued)

December 31, 2016 and 2015, the Fund had no significant exposure to interest rate risk due to the short term nature of its short-term debt instruments, which had maturities of less than three months.

f) Currency risk

Currency risk arises on financial instruments denominated in foreign currencies. Fluctuations in foreign exchange rates impact the valuation of assets and liabilities denominated in foreign currencies. As at December 31, 2016 and 2015, the Fund had no direct exposure to currency risk since none of its financial instruments were denominated in foreign currencies.

g) Concentration risk

Concentration risk arises as a result of the concentration of exposures within the same category, whether it is geographical location, product type, industry sector or counterparty type. The following is a summary of the Fund's concentration risk, expressed in terms of percentage of net assets invested by sector, as at December 31:

Market Segment	2016	2015
Consumer Discretionary	9.2%	11.0%
Consumer Staples	7.0%	6.9%
Energy Infrastructure	15.6%	14.0%
Financial Services	10.8%	15.3%
Health Care	2.8%	2.1%
Industrial	6.3%	5.8%
Information Technology	3.4%	3.6%
Materials	6.2%	8.1%
Oil and Gas	7.0%	5.4%
Real Estate	7.5%	7.4%
Telecommunication Services	3.2%	–
Utilities	8.4%	5.8%

h) Fair value hierarchy

The Fund classifies fair value measurements within a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Manager has the ability to access at the measurement date;
- Level 2 Inputs other than quoted prices included in Level 1 that are observable for the asset or liability either directly or indirectly; and
- Level 3 Inputs that are unobservable. The determination of fair value require significant management judgment or estimation.

BLOOM SELECT INCOME FUND – 2016 ANNUAL REPORT

NOTES TO FINANCIAL STATEMENTS

December 31, 2016 (continued)

If inputs of different levels are used to measure an asset's or liability's fair value, the classification within the hierarchy is based on the lowest level input that is significant to the fair value measurement. The following fair value hierarchy table presents information about the Fund's financial instruments measured at fair value as of December 31, 2016 and 2015:

December 31, 2016

	Level 1	Level 2	Level 3	Total
Equities	\$ 22,578,974	\$ –	\$ –	\$ 22,578,974
	\$ 22,578,974	\$ –	\$ –	\$ 22,578,974

December 31, 2015

	Level 1	Level 2	Level 3	Total
Equities	\$ 24,210,584	\$ –	\$ –	\$ 24,210,584
	\$ 24,210,584	\$ –	\$ –	\$ 24,210,584

There were no transfers between the levels during the years ended December 31, 2016 and 2015.

16. FUND MERGER

On October 23, 2015 (the "Effective Date"), the merger was completed between the Fund and Bloom Income & Growth Canadian Fund ("Terminating Fund"). The Terminating Fund's units were redeemed by the Terminating Fund in exchange for units of the Fund at an exchange ratio calculated based on the relative NAV of the units of the Terminating Fund and the units of the Fund as at the close of trading on the TSX on the business day prior to the Effective Date. Unitholders of the Fund continued to hold the same number of units of the Fund as they held prior to the Merger and, because units of the Fund were issued to the Terminating Fund at a price equal to the NAV per unit of the Fund, the issuance was not dilutive to the Fund's Unitholders. The Manager obtained regulatory authority approval for the merger. The acquisition method was used to record the merger, and the Fund is regarded as the acquirer for accounting purposes. No merger fees were charged to either the terminating fund, the Fund or their unitholders.

Amounts disclosed in the financial statements and notes for periods prior to the merger are for the Fund only.

The Fund acquired portfolio investments with a fair value of \$8,190,732, cash of \$5,182,572 and other net liabilities of \$1,608,353. The Fund issued 1,237,099 units with a NAV of \$11,764,951.

17. FINANCIAL INSTRUMENTS BY CATEGORY

All of the Fund's assets and liabilities other than prepaid expenses and other assets are financial instruments. As at December 31, 2016 and 2015, all of the Fund's financial instruments other than investments were carried at amortized cost, and investments were carried at FVTPL having been designated as such on transition to IFRS.

For the year ended December 31, 2016, net gains on financial instruments designated at FVTPL were \$7,467,952 (2015 – losses of \$1,720,523).
